 Vellore, India (Hometown: Kota, Rajasthan)

EDUCATION

Vellore Institute of Technology (VIT)	Aug. 2024 – May 2028
<i>B.Tech. Computer Science and Engineering (Data Science) – CGPA: 9.08 / 10</i>	Vellore, India
• Relevant Coursework: Data Structures & Algorithms, Machine Learning, Database Management Systems (SQL), Operating Systems, Computer Networks, Data Mining & Warehousing, Applied Statistics, Big Data Analytics, OOP (Java/C++), Linear Algebra	
Bansal Public School, Kota (CBSE Class XII)	Class of 2023
<i>Higher Secondary Education (PCM) – Percentage: 75%</i>	Kota, Rajasthan
St. Joseph Public School, Kota (CBSE Class X)	Class of 2021
<i>Secondary School Education – Percentage: 82%</i>	Kota, Rajasthan

PROJECTS

NewsAtlas Intelligence Terminal <i>React 19, Mapbox GL JS v3, Groq AI (Llama 3.3), Vercel</i>	2025
• Engineered a real-time global situational awareness dashboard aggregating live news signals, economic metrics, weather reports, and stock markets on an interactive 3D Mapbox globe. • Integrated Llama 3.3 via Groq AI serverless API endpoints to dynamically construct instant 10-point geopolitical briefs for any clicked location. • Optimized hardware-accelerated 3D spatial tile rendering and geospatial data stream ingestion for sub-second UI responsiveness. • Live Uplink: news-atlas-live.vercel.app Source: github.com/abhisheksati132/newsatlaslive	
Whispr Real-Time Encrypted Space & PWA <i>Node.js, Express, Socket.io, WebRTC, Supabase, Web Crypto API, Render</i>	2026
• Architected an encrypted, real-time private messaging platform featuring full-duplex WebSocket communication, peer-to-peer WebRTC voice/video calls, and ephemeral disappearing media. • Implemented client-side zero-knowledge End-to-End Encryption (AES-GCM / PBKDF2) using native Web Crypto API and optimized JSONB state persistence on Supabase. • Built an offline-first Progressive Web App (PWA) with Service Worker background caching, VAPID Web Push notifications, and dynamic theme rendering. • Live Uplink: chat-jh59.onrender.com Source: github.com/abhisheksati132/whispr	
Klipport Universal Clipboard & PWA <i>React, Node.js, Socket.io, Web Crypto API, Supabase, Tailwind v4</i>	2026
• Architected a secure cross-device clipboard and sync platform enabling real-time transfers of text snippets, files, and images across mobile and desktop. • Implemented client-side zero-knowledge End-to-End Encryption (AES-GCM / PBKDF2) using Web Crypto API and account-free 6-digit temporary PIN pairing. • Built offline Service-Worker caching and auto-expiring database storage enforcement on Supabase (PostgreSQL). • Live Uplink: klipport.vercel.app Source: github.com/abhisheksati132/klipport	

SKILLS

Languages : C++, Python, Java, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Data Science & ML : Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Jupyter Notebook, Statistical Modeling
Frameworks & Web : React 19, Node.js, Express.js, Socket.io, WebSockets, WebRTC, Mapbox GL JS v3, RESTful APIs, Tailwind v4, PWA
Databases & Cloud: Supabase (PostgreSQL & Storage), MongoDB, SQL, Render, Vercel Serverless
Security & Tools : Web Crypto API (AES-GCM / PBKDF2 E2E Encryption), Web Push (VAPID), High-Performance Telemetry, Git, Linux
